SYSTEM OVERVIEW

From the MAIN MENU, the system is divided into 2 routinely used sections:

1.   **"DAILY"**
         - contains computer stored patient data:
         a. Enter Patient Info
         b. Patient Screen Query
         c. Comment/Finalize

2.   **"VITEK"**
         - contains READER information:
         a. tray directory
         b. card status
         c. card problems
         d. READER status
         e. QC file access

A.   **VITEK #**

         VITEK # = Card # = Last 6 digits of Lab# + isolate#

B.   **BEEPS**

         When Vitek **BEEP**s:
         A red screen with error message will appear.
         Select "**OK**"
         Correct error (eg. printer off, reader door open, tray jams etc.)
